

Germany Transfers Strong Reserve To Pozieres Section

British Are Preparing For Powerful Counter Attacks--The Kaiser Feels Menace of Encircling British

WILL ATTEMPT TO CHECK THE OFFENSIVE

London, July 27.—(By United Press)—Within the next few days the British advanced lines must withstand the Germans most powerful counter-attacks, since the start of the allied offensive. The newly won positions out of Pozieres, from which the Teutons were forced out, will be the point of attack.

Reserve Forces Transferred
This was the opinion of military observers here today. They pointed out that the Germans have admitted the transfer of large reserve forces to this salient from Verdun. Knowledge of that fact has made the British success reported yesterday all the more satisfactory, but it likewise gives notice to military experts here that Germany feeling the menace of the British encircling movements from Pozieres westward and eastward from Hill 141 south of Thiepval would attempt its checking with all their reserves of men and guns at their command.

Hand to Hand Fighting
Hand to hand encounters with the Germans, with active artillery pounding continuing throughout the night, was reported today by General Sir Douglas Haig. He said the Teutons were using quantities of tear making shells.

Berlin, July 27.—Repulse of a British reconnoiter attack southwest of Warneton near Richbourg, and failure of the assault around Berteux and Fleury, were reported in a German official statement today.

Russian Drive Hindered
Petrograd, July 27.—(By United Press)—Heavy rains are impeding the progress of the Russian drive in north Galicia. The Stryk, Stochod and Lipa rivers are swollen over their banks, and the stick marshes at the head of the Stochod in particular has been rendered even more impassible. The Russian forces are battling against the elements as well as against the Teutons, but notwithstanding, is steadily forcing onward. Brody is harassed on two sides by Russian battering rams, which is gradually crushing out the existence of the Austrians.

LARGE PERCENTAGE OF RAILROADERS FAVOR STRIKE
St. Louis, July 27.—(By United Press)—Between 90 and 95 per cent. of the Missouri members of the Four Railway Brotherhood are in favor of a strike. This was learned today from unusually reliable sources. The Brotherhood officials of the St. Louis district today were preparing ballots for delivery to the Brotherhood headquarters in New York.

U. S. Protest Against Blacklist Insists Upon Specific Guarantees

Principals of Boycot Will Be Investigated—U. S. Resisting Contention of Right.

Washington, July 27.—(By United Press)—The protest by the United States to England against the latter's commercial blacklist which the state department announced would go forward in a few days, will be divided into two parts. In the first place, this government will insist upon specific guarantees as to the effect of the black list on American firms. In the second, the whole question of the principal of such a boycott will be entered into, the United States resisting England's contention of her right to establish it. The specific guarantees are wanted immediately.

The matter of the principles at stake will be brought out in time it

CHAUTAUQUA PARADE

The Clearfield Chautauqua will open tomorrow afternoon with a street parade, to start at 2 o'clock from the Upper Wilmer park, back of the new High School building. All who take part in this parade will be admitted to the tent free of charge for the afternoon entertainment, and will also have the pleasure of having their pictures taken and shown on the screen tomorrow (Friday) night.

The guarantors have offered a season ticket for the best decorated automobile in the parade and a Junior Season ticket for the best decorated bicycle.

The principal attraction on the opening program will be the Boys' Choir from Boston, Mass. These little fellows give a splendid concert and have been well liked all over the circuit. Dr. Lincoln Wirt will lecture in the evening on his trials and hardships when, as the representative of the U. S. government, he had charge of Farthest North, a camp of gold miners in Alaska.

GUARANTORS MEET TONIGHT

The Chautauqua guarantors will meet tonight at the Y. M. C. A. Be sure to attend.

42 CARS IN OPERATION ON HARRISBURG RAILWAY LINES

Harrisburg, July 27.—(By United Press)—Forty-two cars were in operation on the Harrisburg Railway Company lines today, the largest number since the walkout on July 16th. Most of them are manned by "loyal local men" who were given a 2c an hour increase and most of the other concessions asked.

BREMEN HEARD FROM--U-BOAT STILL IN PORT

Managers Refuse To Give The Character of The Message --Mishap Is Rumored

ORDERS ARE COUNTERMANDED

Baltimore, July 27.—(By United Press)—Either alarming information or good news of the submarine Bremen has kept the German wonder boat, the Deutschland in port here today. Which it was the managers of the under-sea venture refuse to say. Orders for the vessel to go overnight were countermanded.

Inasmuch as news of the Bremen was the determining feature in the matter of the Deutschland's sailing, it was accepted as truth at least that the Deutschland's sister ship had been heard from. Perhaps, it is said, the Bremen has met with mishap, and the Deutschland would not make an attempt to run the allied blockade. On the other hand, it was suggested that cheerful news determined managers to wait a little on the Bremen's coming.

When the German sub-sea freighter Deutschland skims down the Patuxent for the capes enroute home, a big British tramp steamer the Artygrise is due to follow her as a spy ship.

25 BATHERS BATTLE WITH MAN-EATING SHARKS TODAY

New Haven, Conn., July 27.—(By United Press)—A battle between 25 bathers and a school of man eating sharks was fought close to shore here today. The bathers chased from the beaches by the sharks, dashed to the cottages, and armed themselves with axes and spears and drove the man eating sharks back to deep water. Six sharks were counted close to shore and the agitation of the water beyond where the battle occurred indicated that there were more in the deeper water.

DEEP MYSTERY SURROUNDS MURDER OF MRS. HARTER

Pittsburgh, July 27.—(By United Press)—Deep mystery today surrounds the murder of Mrs. Pauline Harter, 35, by two alleged unknown men while she and her husband, Leon Harter, a tailor, were returning to their home. According to the story told the police by Harter, who was wounded in the leg, the shots were fired from the opposite side of the street. Mrs. Harter died with a bullet in her back. The police are inclined to place the credit on Harter's story told to the Police Commissioner Carroll. He says Harter is in the Homeopathic hospital, and that no bullet hole was found in the trousers Harter wore.

Enthusiastic Meeting Held To Boost Proposition To Buy Park

Committees Return to Work Selling Bonds—People Determined Not to Drop Proposition.

A very enthusiastic public meeting of the Clearfield Park and Fair associations was held in the court room last evening for the purpose of exciting more interest in the proposition to buy the Clearfield Driving park and change it into a fair ground and recreation place. The meeting resulted in the bond committees renewing their work this morning.

Before the meeting was called to order the Fifth Regiment band under the direction of Dr. Leopold and the Clearfield Italian band under the direction of Prof. Impallomeni gave a concert in front of the court house which was followed by one in the court room. The concert was much enjoyed and appreciated by all.

The court room was nearly filled to capacity with residents of Clearfield who wished to see the proposition pushed to a successful completion and from the enthusiasm shown, the park will be brought soon and improvements begun. The business men present left more determined than ever not to abandon the proposition but to see it through and this morning started out to sell the first mortgage bonds which remain.

GUARDS KEPT ON BORDER FOR PROTECTION AND NOT FOR POLITICAL REASONS

New York, July 27.—(By United Press)—"Such talk is treason" said Vance McCormick, chairman of the Democratic National Committee today, in discussing that President Wilson had decided to keep the national guard on the Mexican border until after the election, because he feared it would incur the enmity of the militiamen. "The national guardsmen are loyal patriots" said McCormick. "They joined the services for service and they are all good soldiers. There may be a few grumblers among them, but they are inspired for political purposes by outsiders. President Wilson sent the national guard to the border for protection. Every one knows that. The theory that he sent them there for political reasons and will keep them there until after the election is rot. Such talk is treason."

Militiamen Can't Vote

Washington, July 27.—(By United Press)—Reversing yesterday's action the senate today struck out of the army bill the provision to permit militia men on the Mexican border to vote for president, vice president, senators and congressmen.

BUREAU TO DISCUSS SOME BOROUGH QUESTIONS

Harrisburg, July 27.—(By United Press)—A bureau of officials of the Pennsylvania State Association of Boroughs met at the capital today, to take up some borough questions, and a copy of the report of their meeting will be sent to each borough in the state.

RECENT SKIRMISH ON BORDER NOT IMPORTANT

Mexico City, July 27.—(By United Press)—The recent interchange of shots between Massachusetts militiamen and Mexicans across the border was today declared by the foreign office to be of no importance, principally because there were no casualties on either side. Mexico City is waiting for the American answer to the proposition advanced by the First Chief for a conference of commissioners. Formal appointment of the three commissioners already announced will be withheld until word is received from Washington.

MEMBER OF PARLIAMENT DENOUNCES SEC. SAMUELS

London, July 27.—(By United Press)—Lorenz Ginnel, member of Parliament from Westmeath, and one of the so-called "Irish Intransigent" created a scene in Commons today when he denounced the answer made by Secretary of Home Affairs, Samuels, to one of his queries as "insolent." There was an immediate hubbub in the house, and it increased when Ginnel resented removal by Samuels as "arrogant." Finally the speaker declared that the sitting of the house be suspended.

THREE NEW CASES OF INFANTILE PARALYSIS

Philadelphia, July 27.—(By United Press)—Three new cases of infantile paralysis and one death were reported to the health department today. All the new cases are in the tenement section, and it is feared that other children who had played with them have contracted the disease.

FAKE ALARM IS SENT IN FROM EAST END BOX

\$25 Reward Offered For The Arrest and Conviction of Miscreant by Borough

FIREMEN FIND NO BLAZES

Last night between twelve thirty and one o'clock the town was aroused by the fire alarm sounding for a fire in East End. Some person had sent in a false alarm from the fire box at the corner of Daisy and Seventh streets, by breaking the glass and pulling the hook.

The fire companies all rushed to the scene where the fire was supposed to have been, but were unable to locate any. Chief Connelly then became suspicious that some one had sent in a false alarm and upon investigation, his suspicions were confirmed. He found that the glass was broken with a brick.

This morning Chief Connelly announced that the borough would give a reward of \$25 for any clues which would lead to the arrest and conviction of the person who sent in the alarm. He also stated that the individual would not get another chance to send in an alarm for some time, meaning that if found, he would spend the next few years behind the bars.

This act is punishable by imprisonment and it is certain that the miscreant will get all that is coming to him if found. This is the first time since the new electric fire alarm system has been installed, that an alarm has been sent in without any signs of fire. It is supposed that the person was either drunk or wanted to cause some excitement and being near the box, decided to send in the alarm. Officials are busy hunting for him today and an arrest is expected.

FALLS FROM ICE WAGON BREAKING HIS LEG

"Piney" Rook sustained a broken leg this morning when he was pulled from the drivers seat of the ice wagon and thrown to the street. The horse which he was driving stumbled over a bad place in the road and pulled Mr. Rook, who was holding onto the lines tightly, from his seat, throwing him to the street. He was also badly bruised.

BABY PARALYSIS CASE FOUND IN CITY OF DUBOIS

First Case Reported in Clearfield County--Name Is Under Quarantine

CASE DEVELOPED SINCE SUMMER

The dread disease, infantile paralysis, has invaded DuBois, appearing suddenly in this city and threatening to spread to other afflicted sections. The child, a year-old son of I. L. Johnson, of Main Street and a well known dealer. The paralysis as yet is slight, but a strict quarantine was established at the Johnson residence under the direction of the Health Department.

The case developed since summer and was yesterday definitely diagnosed as infantile paralysis. City Health Officer James H. Ginter, M. D., was called in the case Tuesday and at that time notified Dr. Royer, state medical inspector of Pennsylvania. A quarantine was immediately established by direction of the state health inspector, although the case has not been definitely decided. The city health department did not have an infantile paralysis quarantine card in lieu of one used a diagnostic card. Yesterday the yellow infantile paralysis quarantine card came from Harrisburg and was immediately posted.

The disease appeared suddenly in this city. The affected child was well until Saturday when he began to complain. It was thought that he had only a slight summer illness, but Sunday he grew worse. Dr. Ginter Johnson was called and treated the child. It was a case of gastro-intestinal trouble but Tuesday showed the evidences of paralysis and was diagnosed as such. From the time the physician had completed that the case was one of paralysis and which such act in Tuesday, he notified Dr. Ginter, city health officer. The city physician in company with other physicians went to the Johnson home and made an examination of the child. The child was paralyzed on the left side at the paralysis was slight. He was pronounced infantile paralysis and the State Health Department at once communicated with the quarantine ordered. Yesterday evidences of the disease were stronger, but the attending physicians are of the opinion that it is a mild case.

Dr. Royer, state health inspector, was again called yesterday and it is probable that a state health officer will be sent to this city to see that the quarantine is strictly observed. Dr. S. C. Stewart, of Clearfield county medical inspector, was also called to develop a case of infantile paralysis had developed here. The quarantine is under his supervision.

First in Clearfield County
This is the first case of infantile paralysis to develop in Clearfield County, the first in this section, the nearest cases being at Altoona and Pittsburgh.

It is not known how the disease got into DuBois, and as so little is known of the disease by medical authorities no theories can be advanced. The case started with the usual gastro-intestinal trouble and from that, a few hours developed into paralysis. The attending physicians are making every effort within their power and knowledge of the disease to check its progress. What will be the extent and how serious will materialize within the next twenty-four hours. As yet the case is only a sporadic case. On the spread of the disease depends whether it is to be labeled a case of epidemic or not.

The case developed in a family that had not been outside of the city for five or six months, and the afflicted child had not been playing with other children than his neighbors, who also have been in DuBois all the time.

POETS AND POETRY.

It must be the air. Some quiet influence is silently bringing forth a dearth of poets among Clearfielders and Clearfield Counties. Almost every day The Progress is the recipient of poems of life, romance, love and death written by those of this immediate vicinity. In the near future we will present them. We will not attempt to criticize but will give them to you as they came to us. If any desire to add to our collection please present them within the next few days.

THE LID IS ON.

President Wilson, congress, army officers and news agencies have a strenuous time just now keeping the lid on Mexican affairs. Judging from the calm, all must be peaceful and serene. It is, just now at least, but a smoldering fire burns all the fiercer after having been left lay. A little bit of air will then cause it to burn with devilish fury. Mexico is once again a smoldering fire. Nothing is being done by the administration to allow it to get a breath of oxygen and nothing will be done by the administration until after the election. The administration realizes that any trouble with Mexico now would burst their only campaign bubble. The deadly fumes of hate for Americans and the poisonous gases of planned border raids continue to cloud the air in Mexico but they are not allowed to float across the border. Some day however the fumes will get beyond their control and burn with fury. When that time comes, do we want an administration that is to proud to fight or one that personifies determination and decision.

GOOD ROADS DAY IN TENNESSEE.

Nashville, July 27.—Every able-bodied citizen in Tennessee, or a large proportion of them at any rate, is expected to take his pick and shovel in hand today and help in improving the roads in his community. In keeping with the idea expressed in Gov. Rye's proclamation fixing it as Good Roads Day, Tennessee is very

proud of the progress already made in the improvement of its highways and it hopes that within a few years it will have the finest system of roads to be found south of the Ohio River. Thirty million dollars have been spent in the state for road improvements in the last fifteen years.

Today's Geographic Study of The Great European War Zone

"When dispatches from the East Africa battle front recently announced the successful operation of British forces under General Smuts between Tanga and Keregewe, and of a force under Brigadier General Sir C. Crewe at Muanza, few readers realized that the distance separating these two scenes of hostility in German East Africa is as great as the airline distance from London to Frankfurt, Germany," according to today's war Geography bulletin of the National Geographic society, issued from its Washington headquarters.

"From Tanga to southern shores of Lake Kiwa, where the Belgians from the Congo made their first descent upon the Teutonic enemy's African possessions it is nearly two thousand miles from Brussels to Berlin.

"The scene of General Smuts' success was along the Usambara railway, which, at the outbreak of the war, Germany was constructing from the seaport of Tanga to Lake Victoria Nyanza. When complete it will prove an outlet for one of the richest sections of the 'dark continent.' That part of the road already in operation taps the rich agricultural region of Usambara, the first district of German East Africa to come under the jurisdiction of the Kaiser. It was just 22 years ago that three young Germans, Karl Peters, Count Pfeil, and Dr. Jähle, made their way inland from the coast and won the friendship by others insuring protection for a colonization society chartered by the German government. For five or six years the Sultan of Zanzibar disputed the right of the Germans to make treaties with tribes supposed to be subject to him, but a quarter of a century ago he surrendered his claim to the mainland territory for a million dollars.

"Tanga, whose name means 'the sail', is a town of 8,000 inhabitants, only about 100 of whom are Europeans. About 30 miles to the east is the fertile island of Pemba, with an area about equal to that of Cape Cod. It is famous for its cloves, exporting annually about 10,000,000 pounds of this spice. The popularity of clove plantations with Pemba planters, date back about 45 years, when a cyclone devastated the neighboring island of Zanzibar, and temporarily created a shortage in the spice market.

"Tanga is about 20 miles south of the boundary line between British and German East Africa, and about 70 miles southwest of Mombasa, the chief seaport of the British East African colony. It is 30 miles north of the port of Pangani, situated at the mouth of the river of the same name, down which the Germans are reported to have retreated before the troops under General Smuts.

"Muanza, the scene of General Sir S. Crewe's success, is 125 miles southwest of the British-German frontier, on the southern shore of Lake Victoria Nyanza. The tiny gulf on which the station is situated is called Speke, in honor of the great English explorer, John Hanning Speke, who discovered the lake in 1858 and recognized it as the source of the Nile, thereby solving a problem which had puzzled geographers for 2,000 years. This young Englishman, to whose memory a granite obelisk now stands in Kensington Gardens, London, accidentally killed himself while out hunting the afternoon before he was to meet his former associate, Sir Richard Burton, in public debate on the

question of whether Victoria Nyanza or Lake Tanganyika was the true source of the great life-giver of Egypt."

GREAT AMERICAN FOOT IS FEELING PINCH OF WAR

Chicago, July 27.—(By United Press)—Evidence of how the European war was pinching tender American toes and pocketbooks was shown here today at their losing session of the Illinois Shoe Retailers association.

O. L. Trible, Jr., of Springfield, secretary, declared prices for shoes have jumped 20 to 30 per cent during the last year and it is up to the consumer to pay the price.

Demand for leather for shoes for the European armies caused the advance.

Trible said tan calfskin for shoes, retailing at \$5.00 sold at 50 cents a foot a year ago and now brings 47 cents men's dull calf leather, formerly 30 cents a foot a year ago and now brings 47 cents men's dull calf leather, formerly 30 cents, now sells for 41 cents; white calf for women's shoes, formerly sold for 28 cents, now sells at 35 cents, and so on down the line. Liners, laces, eyelets and buttons also have advanced in price.

ACCORDING TO YUAN'S WILL CHILDREN ARE SCATTERED

Chinese Ruler Directed the Near Future for His Children

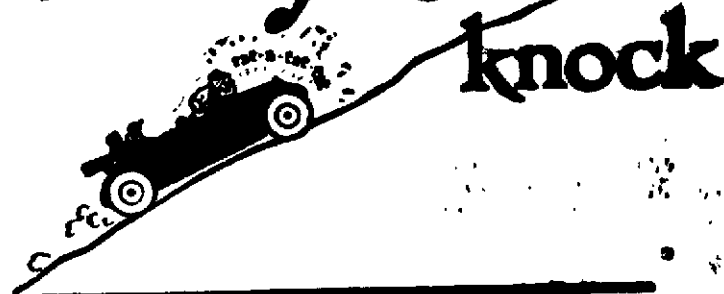

Peking, July 27.—(By United Press)—In accordance with the late President Yuan Shi Kai's final instructions, sons and daughters of the dead ruler are preparing today to be sent to many widely separated places in charge of government officials.

Before his death, Yuan directed that his eldest, second and third sons and all his daughters and concubines should return to his native place to be cared for by Yuan Shi-fu, his fifth youngest brother.

His fourth, fifth, sixth and seventh sons were ordered sent to England, in charge of Yen Hsin, former minister of education, for their schooling. His four youngest sons were entrusted to the care of Hsu Shi-chang, former secretary of state. Several weeks having elapsed since the death of the ruler, the tension at foreign legations here is decreased and fear that a disturbance similar to the Boer war might be imminent has been dissipated.

For some time after Yuan's death foreigners believed danger near. At several of the legations, entrenchments were thrown up, machine gun-placed at advantageous positions and large stores of food prepared for a siege. Foreigners were warned to be ready to seek the shelter of their legations at a moment's notice.

Why that knock

Bent cam-shaft? Maybe. Timing-gears a little loose? Perhaps. Ten-to-one, the power plant is chuck-full of carbon. And it was only last month you had the valves reground. Good Night! There you are—the symptoms are unmistakable: *improper lubrication.*

Atlantic Motor Oils will offset that condition like magic. They will diminish carbon to an absolute minimum—and the knock will take to the tall timber in the bargain.

Atlantic Motor Oils are not prescribed as a panacea for car-troubles, but they are recommended by the oldest and largest manufacturers of lubricating oils in the world as the correct lubricants for all makes of motors. Polarine, the famous

year-round lubricant, is exactly right for eight out of ten cars. Under certain conditions, your particular motor may require one of the other principal motor oils—Atlantic "Light," Atlantic "Medium," or Atlantic "Heavy." Your garageman will advise you which.

Actual tests demonstrate that proper lubrication often increases gasoline-mileage by as much as five miles to the gallon. That's worth considering.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you, send us a postcard and the book will be sent you without charge.

IF BACKACHY OR KIDNEYS BOTHER

Eat Less Meat Also Take a Glass of Salts Before Eating Breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

NEW KIND OF COUNT IN "MEENA'S ROMANCE"

Nobleman Who Goes to Work Appears in Triangle Play Featuring Dorothy Gish and Owen Moore

For many years, in plays and comic papers, the titled foreigner stranded in America without funds, has been the butt of popular jokes. It seemed to have remained for the motion picture to set him in his true light. He appears as the hero of "Little Meena's Romance," a serious photoplay featuring Dorothy Gish and Owen Moore and released on the Triangle-Fine Arts programme.

In this piece, he is the Count Frederick von Ritz, a young man of exceeding good looks and some resource, although his money is about all gone. To make up his deficit, he applies for work as a salesman of clothes-wringers and, because he speaks German, is given that territory outlying Philadelphia, occupied by people called "Pennsylvania Dutch."

Count von Ritz at first finds the

people ill-disposed to buy anything that will make housework lighter for the women, because "for what else was women's hands made but to work?" He has made his first stop the little hamlet of Berksdorf; and by ill chance, he has included in his route the home of the town constable who promptly arrests him for canvassing without a license.

He is brought before Judge Bauer who grimly presents him with the alternative of paying ten dollars fine or going for a space of time to the calaboose. At this juncture, little Meena, the judge's pretty daughter suggests to her father that he let Mr. Ritz earn his fine by selling wringers; and in gratitude for this plan to which the judge consents, Mr. Ritz forms a partnership with little Meena, whereby she is to aid him in making sales at a net return of fifty cents to her. How this works out is one of the most amusing parts of a clever film. At the opera house tomorrow evening.

CURWENSVILLE

The July meeting of the Civic Club was held Tuesday evening in their room in the high school building at the usual hour with President C. S. Russell presiding. The program was as follows: Prayer led by Rev. I. T. Hawkins; music; recitation by Miss Mae Shively; open parliament; lessons from our recent celebration of Independence Day, opened by the president. Playground committee reported arrangements progressing for an early opening of the first playground; committee on sanitation and the secretary reported the matter of the town's open sewer laid before the proper authorities and receiving their consideration. Committee was appointed to seek the aid of the State Shade Tree Commission as to the town's dying shade trees. Music. Closed with prayer by Rev. E. D. Parkhill. An offering of 75 cents was received. Committee for Aug. 29th, R. K. Way, Frank McLaughlin and Miss Rose Williams.

Street Commissioner Strunk will soon commence the building of 400 feet of concrete sidewalk, commencing on the south side of Anderson Creek, on the other side of the B. & P. crossing and extending up the hill to a point joining the property of Mike Zaitz.

John W. Broome, who has been residing at Clymer for several years and was connected with an electric light company, has been in town several days making ready to move to his new position at Millersburg. He is the eldest son of Mrs. Martha Broome of this place.

R. Murdock, a resident of Akron, O., and connected with a large business firm there, was a town visitor Wednesday. This was his first visit to Curwensville and he expressed himself well pleased with the town and its general appearance.

Workmen started on Wednesday on the job of painting all the large building of the Penn Hide & Leather Company. Red will be the color used with yellow trimming. It will require more than six barrels of paint to complete the work.

More than 2,000 cords of bark has already been delivered to the Summit sole leather tannery. This is about one-half the amount of bark that is expected to arrive.

The brick yard clay mines are a little more than rushing work along these hot days. Something like 200 to 250 tons of clay are mined daily and shipped to the plant.

Mrs. Max Roth and daughter, Miss Corine, who spent a month in Pittsburgh, visiting friends, returned to their home at Eastview Wednesday.

Mrs. H. P. Kirk and children returned home on Wednesday evening from a two days auto trip to Greensburg and intermediate points.

Messrs. R. McClain, G. W. McClain and H. J. Harkin, all of Clarion, Pa., were town visitors on Wednesday.

Many Curwensville people will remember F. M. Clough, who was connected with the making of the Buck match, with E. L. Coolbroth and others. Later he was with the Diamond Match Company. Now he is the general manager of the Pacific Coast Shredded Wheat Company, the largest concern of that kind in the United States. His permanent address is Oakland, Cal.

Germany Transfers Strong Reserve To Pozieres Section

British Are Preparing For Powerful Counter Attacks--The Kaiser Feels Menace of Encircling British

WILL ATTEMPT TO CHECK THE OFFENSIVE

London, July 27.—(By United Press)—Within the next few days the British advanced lines must withstand the Germans most powerful counter-attacks, since the start of the allied offensive. The newly won positions out of Pozieres, from which the Teutons were forced out, will be the point of attack.

Reserve Forces Transferred
This was the opinion of military observers here today. They pointed out that the Germans have admitted the transfer of large reserve forces to this salient from Verdun. Knowledge of that fact has made the British success reported yesterday all the more satisfactory, but it likewise gives notice to military experts here that Germany feeling the menace of the British encircling movements from Pozieres westward and eastward from Hill 141 south of Thiepval would attempt its checking with all their reserves of men and guns at their command.

Hand to Hand Fighting
Hand to hand encounters with the Germans, with active artillery pounding continuing throughout the night, was reported today by General Sir Douglas Haig. He said the Teutons were using quantities of tear making shells.

Berlin, July 27.—Repulse of a British reconnoiter attack southwest of Warneton near Richbourg, and failure of the assault around Berteux and Fleury, were reported in a German official statement today.

Russian Drive Hindered
Petrograd, July 27.—(By United Press)—Heavy rains are impeding the progress of the Russian drive in north Galicia. The Stryk, Stokhod and Lipa rivers are swollen over their banks, and the stick marshes at the head of the Stokhod in particular has been rendered even more impassible. The Russian forces are battling against the elements as well as against the Teutons, but notwithstanding, is steadily forcing onward. Brody is harassed on two sides by Russian battering rams, which is gradually crushing out the existence of the Austrians.

LARGE PERCENTAGE OF RAILROADERS FAVOR STRIKE
St. Louis, July 27.—(By United Press)—Between 90 and 95 per cent. of the Missouri members of the Four Railway Brotherhood are in favor of a strike. This was learned today from unusually reliable sources. The Brotherhood officials of the St. Louis district today were preparing ballots for delivery to the Brotherhood headquarters in New York.

U. S. Protest Against Blacklist Insists Upon Specific Guarantees

Principals of Boycot Will Be Investigated—U. S. Resisting Contention of Right.

Washington, July 27.—(By United Press)—The protest by the United States to England against the latter's commercial blacklist which the state department announced would go forward in a few days, will be divided into two parts. In the first place, this government will insist upon specific guarantees as to the effect of the blacklist on American firms. In the second, the whole question of the principal of such a boycott will be entered into, the United States resisting England's contention of her right to establish it. The specific guarantees are wanted immediately.

The matter of the principles at stake will be argued out in time it

METHODIST CHURCH AT LUMBER CITY TO RE-OPEN

Interesting Services to Be Held at Grove Church Saturday.

Extensive improvements have just been completed on the Chestnut Grove Church on the Lumber City M. E. charge. A new roof, new paint inside and out, new paper, and new carpet are included in the betterments. The expenditure is a little more than \$200.

The reopening will be held next Sunday, July 30. The preacher for the occasion will be the Rev. Marshall C. Piper, of Milesburg, Pa. The Rev. L. F. Athey, of Luthersburg, will deliver an illustrated lecture in the church on Saturday evening, July 29. Admission free. Rev. Piper will preach on Sunday, both morning and evening. In the afternoon a platform meeting will be held at which Rev. Chas. A. Biddle, member of the Gospel Band from Curwensville and others will speak. Everybody welcome.

CHAUTAUQUA PARADE

The Clearfield Chautauqua will open tomorrow afternoon with a street parade, to start at 2 o'clock from the Upper Wilmer park, back of the new High School building. All who take part in this parade will be admitted to the tent free of charge for the afternoon entertainment, and will also have the pleasure of having their pictures taken and shown on the screen tomorrow (Friday) night.

The guarantors have offered a season ticket for the best decorated automobile in the parade and a Junior Season ticket for the best decorated bicycle.

The principal attraction on the opening program will be the Boys' Choir from Boston, Mass. These little fellows give a splendid concert and have been well liked all over the circuit. Dr. Lincoln Wirt will lecture in the evening on his trials and hardships when, as the representative of the U. S. government, he had charge of Farthest North, a camp of gold miners in Alaska.

GUARANTORS MEET TONIGHT

The Chautauqua guarantors will meet tonight at the Y. M. C. A. Be sure to attend.

42 CARS IN OPERATION ON HARRISBURG RAILWAY LINES

Harrisburg, July 27.—(By United Press)—Forty-two cars were in operation on the Harrisburg Railway Company lines today, the largest number since the walkout on July 16th. Most of them are manned by "loyal local men" who were given a 2c an hour increase and most of the other concessions asked.

BREMEN HEARD FROM--U-BOAT STILL IN PORT

Managers Refuse To Give The Character of The Message --Mishap Is Rumored

ORDERS ARE COUNTERMANDED

Baltimore, July 27.—(By United Press)—Either alarming information or good news of the submarine Bremen has kept the German wonder boat, the Deutschland in port here today. Which it was the managers of the under-sea venture refuse to say. Orders for the vessel to go overnight were countermanded.

Inasmuch as news of the Bremen was the determining feature in the matter of the Deutschland's sailing, it was accepted as truth at least that the Deutschland's sister ship had been heard from. Perhaps, it is said, the Bremen has met with mishap, and the Deutschland would not make an attempt to run the allied blockade. On the other hand, it was suggested that cheerful news determined managers to wait a little on the Bremen's coming.

When the German sub-sea freighter Deutschland skims down the Patuxent for the capes enroute home, a big British tramp steamer the Artygrise is due to follow her as a spy ship.

25 BATHERS BATTLE WITH MAN-EATING SHARKS TODAY

New Haven, Conn., July 27.—(By United Press)—A battle between 25 bathers and a school of man eating sharks was fought close to shore here today. The bathers chased from the beaches by the sharks, dashed to the cottages, and armed themselves with axes and spears and drove the man eating sharks back to deep water. Six sharks were counted close to shore and the agitation of the water beyond where the battle occurred indicated that there were more in the deeper water.

DEEP MYSTERY SURROUNDS MURDER OF MRS. HARTER

Pittsburgh, July 27.—(By United Press)—Deep mystery today surrounds the murder of Mrs. Pauline Harter, 35, by two alleged unknown men while she and her husband, Leon Harter, a tailor, were returning to their home. According to the story told the police by Harter, who was wounded in the leg, the shots were fired from the opposite side of the street. Mrs. Harter died with a bullet in her back. The police are inclined to place the credit on Harter's story told to the Police Commissioner Carroll. He says Harter is in the Homeopathic hospital, and that no bullet hole was found in the trousers Harter wore.

Enthusiastic Meeting Held To Boost Proposition To Buy Park

Committees Return to Work Selling Bonds—People Determined Not to Drop Proposition.

A very enthusiastic public meeting of the Clearfield Park and Fair associations was held in the court room last evening for the purpose of exciting more interest in the proposition to buy the Clearfield Driving park and change it into a fair ground and recreation place. The meeting resulted in the bond committees renewing their work this morning.

Before the meeting was called to order the Fifth Regiment band under the direction of Dr. Leopold and the Clearfield Italian band under the direction of Prof. Impallomeni gave a concert in front of the court house which was followed by one in the court room. The concert was much enjoyed and appreciated by all.

The court room was nearly filled to capacity with residents of Clearfield who wished to see the proposition pushed to a successful completion and from the enthusiasm shown, the park will be brought soon and improvements begun. The business men present left more determined than ever not to abandon the proposition but to see it through and this morning started out to sell the first mortgage bonds which remain.

GUARDS KEPT ON BORDER FOR PROTECTION AND NOT FOR POLITICAL REASONS

New York, July 27.—(By United Press)—"Such talk is treason" said Vance McCormick, chairman of the Democratic National Committee today, in discussing that President Wilson had decided to keep the national guard on the Mexican border until after the election, because he feared it would incur the enmity of the militiamen. "The national guardsmen are loyal patriots" said McCormick. "They joined the services for service and they are all good soldiers. There may be a few grumblers among them, but they are inspired for political purposes by outsiders. President Wilson sent the national guard to the border for protection. Every one knows that. The theory that he sent them there for political reasons and will keep them there until after the election is rot. Such talk is treason."

Militiamen Can't Vote

Washington, July 27.—(By United Press)—Reversing yesterday's action the senate today struck out of the army bill the provision to permit militia men on the Mexican border to vote for president, vice president, senators and congressmen.

BUREAU TO DISCUSS SOME BOROUGH QUESTIONS

Harrisburg, July 27.—(By United Press)—A bureau of officials of the Pennsylvania State Association of Boroughs met at the capital today, to take up some borough questions, and a copy of the report of their meeting will be sent to each borough in the state.

The meeting was presided over by J. P. O'Laughlin, vice president of the Chamber of Commerce, who in his opening address announced that \$8200 worth of the bonds had been sold. This is a little over half of the amount needed as the purchase price is \$16,250, much less than the park is worth if cut up into town lots.

A map submitted by A. H. MaWinney, landscape gardener, showed what the park would be after the improvements have been put on and gave the people an idea of what will be secured for the town by the purchase.

Addresses were made by H. B. Powell, C. T. Kurtz, Dr. E. C. Reeve, W. A. Hagerty, Fred G. Betts, W. I. Lewis and J. P. O'Laughlin. These men all told of the value the park will be to the people of Clearfield and the need of such a place in this borough. Mr. Hagerty spoke on the health value of a recreation park.

After the meeting several bonds were sold and this morning the committees are hard at work trying to sell the remainder. It is thought that they will all be sold within a short time and the deal completed whereby the town will come into possession of the Driving park.

RECENT SKIRMISH ON BORDER NOT IMPORTANT

Mexico City, July 27.—(By United Press)—The recent interchange of shots between Massachusetts militiamen and Mexicans across the border was today declared by the foreign office to be of no importance, principally because there were no casualties on either side. Mexico City is waiting for the American answer to the proposition advanced by the First Chief for a conference of commissioners. Formal appointment of the three commissioners already announced will be withheld until word is received from Washington.

MEMBER OF PARLIAMENT DENOUNCES SEC. SAMUELS

London, July 27.—(By United Press)—Lorenz Ginnel, member of Parliament from Westmeath, and one of the so-called "Irish Inconceivable" created a scene in Commons today when he denounced the answer made by Secretary of Home Affairs, Samuels, to one of his queries as "insolent." There was an immediate hubbub in the house, and it increased when Ginnel resented removal by "caricatures-at-arms." Finally the speaker declared that the sitting of the house be suspended.

THREE NEW CASES OF INFANTILE PARALYSIS

Philadelphia, July 27.—(By United Press)—Three new cases of infantile paralysis and one death were reported to the health department today. All the new cases are in the tenement section, and it is feared that other children who had played with them have contracted the disease.

FAKE ALARM IS SENT IN FROM EAST END BOX

\$25 Reward Offered For The Arrest and Conviction of Miscreant by Borough

FIREMEN FIND NO BLAZES

Last night between twelve thirty and one o'clock the town was aroused by the fire alarm sounding for a fire in East End. Some person had sent in a false alarm from the fire box at the corner of Daisy and Seventh streets, by breaking the glass and pulling the hook.

The fire companies all rushed to the scene where the fire was supposed to have been, but were unable to locate any. Chief Connelly then became suspicious that some one had sent in a false alarm and upon investigation, his suspicions were confirmed. He found that the glass was broken with a brick.

This morning Chief Connelly announced that the borough would give a reward of \$25 for any clues which would lead to the arrest and conviction of the person who sent in the alarm. He also stated that the individual would not get another chance to send in an alarm for some time, meaning that if found, he would spend the next few years behind the bars.

This act is punishable by imprisonment and it is certain that the miscreant will get all that is coming to him if found. This is the first time since the new electric fire alarm system has been installed, that an alarm has been sent in without any signs of fire. It is supposed that the person was either drunk or wanted to cause some excitement and being near the box, decided to send in the alarm. Officials are busy hunting for him today and an arrest is expected.

FALLS FROM ICE WAGON BREAKING HIS LEG

"Piney" Rook sustained a broken leg this morning when he was pulled from the drivers seat of the ice wagon and thrown to the street. The horse which he was driving stumbled over a bad place in the road and pulled Mr. Rook, who was holding onto the lines tightly, from his seat, throwing him to the street. He was also badly bruised.

BALL GAME AT WINBERNE

The Avis shop team will play the Winberne first team Saturday, July 29, at three o'clock. Last Saturday the Avis shop team defeated the first team at Cornbury by a score of 1-0. Everybody come out and see the game Saturday for its promise to be the most exciting game of the season.

BABY PARALYSIS CASE FOUND IN CITY OF DUBOIS

First Case Reported in Clearfield County--Name Is Under Quarantine

CASE DEVELOPED SINCE SUMMER

The dread disease, infantile paralysis, has invaded DuBois, appearing suddenly in this city and threatening to spread to other sections. The first case is a year-old son of I. L. Johnson, of Main Street and a well known dealer. The paralysis as yet is slight, but a strict quarantine was established at the Johnson residence under the direction of the Health Department.

The case developed since summer and was yesterday definitely diagnosed as infantile paralysis. City Health Officer James H. Ginter, M. D., was called in the case Tuesday and at that time notified Dr. Royer, state medical inspector of Pennsylvania. A quarantine was immediately established by direction of the state health inspector, although the case has not been definitely decided. The city health department did not have an infantile paralysis quarantine card in lieu of one used a diagnostic card. Yesterday the yellow infantile paralysis quarantine card came from Harrisburg and was immediately posted.

The disease appeared suddenly in this city. The affected child was well until Saturday when he began to complain. It was thought that he had only a slight summer illness, but Sunday he grew worse. Dr. Ginter Johnson was called and treated the child. It was a case of gastro-intestinal trouble but Tuesday showed the evidences of paralysis and was diagnosed as such. From the time the physician had completed that the case was one of paralysis and which such act in Tuesday, he notified Dr. Ginter, city health officer. The city physician in company with other physicians went to the Johnson home and made an examination of the child. The child was paralyzed on the left side at the paralysis was slight. He was pronounced infantile paralysis and the State Health Department at once communicated with the quarantine ordered. Yesterday evidences of the disease were stronger, but the attending physicians are of the opinion that it is a mild case.

Dr. Royer, state health inspector, was again called yesterday and it is probable that a state health officer will be sent to this city to see that the quarantine is strictly observed. Dr. S. C. Stewart, of Clearfield county medical inspector, was also called to develop a case of infantile paralysis had developed here. The quarantine is under his supervision.

First in Clearfield County
This is the first case of infantile paralysis to develop in Clearfield County, the first in this section, the nearest cases being at Altoona and Pittsburgh.

It is not known how the disease got into DuBois, and as so little is known of the disease by medical authorities no theories can be advanced. The case started with the usual gastro-intestinal trouble and from that, a few hours developed into paralysis. The attending physicians are making every effort within their power and knowledge of the disease to check its progress. What will be the extent and how serious will materialize within the next twenty-four hours. As yet the case is only a sporadic case. On the spread of the disease depends whether it is to be labeled a case of epidemic or not.

The case developed in a family that had not been outside of the city for five or six months, and the afflicted child had not been playing with other children than his neighbors, who also have been in DuBois all the time.

THAT PUBLIC OPINION COLUMN.

Do you want it? Some have said and written us that they want it. Never was a time in our history when there were as many live topics for discussion as today. Let us hear from you.

POETS AND POETRY.

It must be the air. Some quiet influence is silently bringing forth a dearth of poets among Clearfielders and Clearfield Counties. Almost every day The Progress is the recipient of poems of life, romance, love and death written by those of this immediate vicinity. In the near future we will present them. We will not attempt to criticize but will give them to you as they came to us. If any desire to add to our collection please present them within the next few days.

THE LID IS ON.

President Wilson, congress, army officers and news agencies have a strenuous time just now keeping the lid on Mexican affairs. Judging from the calm, all must be peaceful and serene. It is, just now at least, but a smoldering fire burns all the fiercer after having been left lay. A little bit of air will then cause it to burn with devilish fury. Mexico is once again a smoldering fire. Nothing is being done by the administration to allow it to get a breath of oxygen and nothing will be done by the administration until after the election. The administration realizes that any trouble with Mexico now would burst their only campaign bubble. The deadly fumes of hate for Americans and the poisonous gases of planned border raids continue to cloud the air in Mexico but they are not allowed to float across the border. Some day however the fumes will get beyond their control and burn with fury. When that time comes, do we want an administration that is to proud to fight or one that personifies determination and decision.

GOOD ROADS DAY IN TENNESSEE.

Nashville, July 27.—Every able-bodied citizen in Tennessee, or a large proportion of them at any rate, is expected to take his pick and shovel in hand today and help in improving the roads in his community. In keeping with the idea expressed in Gov. Rye's proclamation fixing it as Good Roads Day, Tennessee is very

proud of the progress already made in the improvement of its highways and it hopes that within a few years it will have the finest system of roads to be found south of the Ohio River. Thirty million dollars has been spent in the state for road improvements in the last fifteen years.

Today's Geographic Study of The Great European War Zone

"When dispatches from the East Africa battle front recently announced the successful operation of British forces under General Smuts between Tanga and Keregewe, and of a force under Brigadier General Sir C. Crewe at Muanza, few readers realized that the distance separating these two scenes of hostility in German East Africa is as great as the airline distance from London to Frankfurt, Germany," according to today's war Geography bulletin of the National Geographic society, issued from its Washington headquarters.

"From Tanga to southern shores of Lake Kiwa, where the Belgians from the Congo made their first descent upon the Teutonic enemy's African possessions it is nearly two thousand miles from Brussels to Berlin.

"The scene of General Smuts' success was along the Usambara railway, which, at the outbreak of the war, Germany was constructing from the seaport of Tanga to Lake Victoria Nyanza. When complete it will prove an outlet for one of the richest sections of the 'dark continent.' That part of the road already in operation taps the rich agricultural region of Usambara, the first district of German East Africa to come under the jurisdiction of the Kaiser. It was just 22 years ago that three young Germans, Karl Peters, Count Pfeil, and Dr. Jähle, made their way inland from the coast and won the friendship by others insuring protection for a colonization society chartered by the German government. For five or six years the Sultan of Zanzibar disputed the right of the Germans to make treaties with tribes supposed to be subject to him, but a quarter of a century ago he surrendered his claim to the mainland territory for a million dollars.

"Tanga, whose name means 'the sail', is a town of 8,000 inhabitants, only about 100 of whom are Europeans. About 30 miles to the east is the fertile island of Pemba, with an area about equal to that of Cape Cod. It is famous for its cloves, exporting annually about 10,000,000 pounds of this spice. The popularity of clove plantations with Pemba planters, date back about 45 years, when a cyclone devastated the neighboring island of Zanzibar, and temporarily created a shortage in the spice market.

"Tanga is about 20 miles south of the boundary line between British and German East Africa, and about 70 miles southwest of Mombasa, the chief seaport of the British East African colony. It is 30 miles north of the port of Pangani, situated at the mouth of the river of the same name, down which the Germans are reported to have retreated before the troops under General Smuts.

"Muanza, the scene of General Sir S. Crewe's success, is 125 miles southwest of the British-German frontier, on the southern shore of Lake Victoria Nyanza. The tiny gulf on which the station is situated is called Speke, in honor of the great English explorer, John Hanning Speke, who discovered the lake in 1858 and recognized it as the source of the Nile, thereby solving a problem which had puzzled geographers for 2,000 years. This young Englishman, to whose memory a granite obelisk now stands in Kensington Gardens, London, accidentally killed himself while out hunting the afternoon before he was to meet his former associate, Sir Richard Burton, in public debate on the

question of whether Victoria Nyanza or Lake Tanganyika was the true source of the great life-giver of Egypt."

GREAT AMERICAN FOOT IS FEELING PINCH OF WAR

Chicago, July 27.—(By United Press)—Evidence of how the European war was pinching tender American toes and pocketbooks was shown here today at their losing session of the Illinois Shoe Retailers association.

O. L. Trible, Jr., of Springfield, secretary, declared prices for shoes have jumped 20 to 30 per cent during the last year and it is up to the consumer to pay the price.

Demand for leather for shoes for the European armies caused the advance.

Trible said tan calfskin for shoes, retailing at \$5.00 sold at 50 cents a foot a year ago and now brings 47 cents men's dull calf leather, formerly 30 cents a foot a year ago and now brings 47 cents men's dull calf leather, formerly 30 cents, now sells for 41 cents; white calf for women's shoes, formerly sold for 28 cents, now sells at 35 cents, and so on down the line. Liners, laces, eyelets and buttons also have advanced in price.

ACCORDING TO YUAN'S WILL CHILDREN ARE SCATTERED

Chinese Ruler Directed the Near Future for His Children

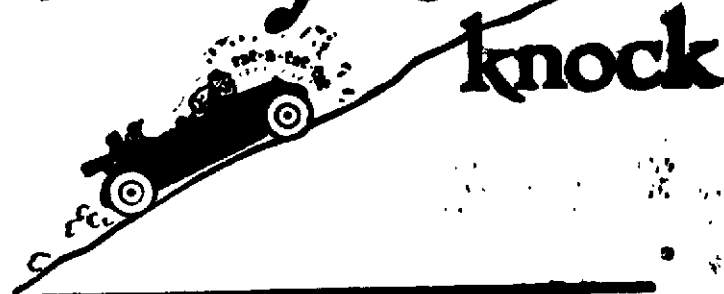

Peking, July 27.—(By United Press)—In accordance with the late President Yuan Shi Kai's final instructions, sons and daughters of the dead ruler are preparing today to be sent to many widely separated places in charge of government officials.

Before his death, Yuan directed that his eldest, second and third sons and all his daughters and concubines should return to his native place to be cared for by Yuan Shi-fu, his fifth youngest brother.

His fourth, fifth, sixth and seventh sons were ordered sent to England, in charge of Yen Hsin, former minister of education, for their schooling. His four youngest sons were entrusted to the care of Hsu Shi-chang, former secretary of state. Several weeks having elapsed since the death of the ruler, the tension at foreign legations here is decreased and fear that a disturbance similar to the Boer war might be imminent has been dissipated.

For some time after Yuan's death foreigners believed danger near. At several of the legations, entrenchments were thrown up, machine gun-placed at advantageous positions and large stores of food prepared for a siege. Foreigners were warned to be ready to seek the shelter of their legations at a moment's notice.

Why that knock

Bent cam-shaft? Maybe. Timing-gears a little loose? Perhaps. Ten-to-one, the power plant is chuck-full of carbon. And it was only last month you had the valves reground. Good Night! There you are—the symptoms are unmistakable: *improper lubrication.*

Atlantic Motor Oils will offset that condition like magic. They will diminish carbon to an absolute minimum—and the knock will take to the tall timber in the bargain.

Atlantic Motor Oils are not prescribed as a panacea for car-troubles, but they are recommended by the oldest and largest manufacturers of lubricating oils in the world as the correct lubricants for all makes of motors. Polarine, the famous

year-round lubricant, is exactly right for eight out of ten cars. Under certain conditions, your particular motor may require one of the other principal motor oils—Atlantic "Light," Atlantic "Medium," or Atlantic "Heavy." Your garageman will advise you which.

Actual tests demonstrate that proper lubrication often increases gasoline-mileage by as much as five miles to the gallon. That's worth considering.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you, send us a postcard and the book will be sent you without charge.

IF BACKACHY OR KIDNEYS BOTHER

Eat Less Meat Also Take a Glass of Salts Before Eating Breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

NEW KIND OF COUNT IN "MEENA'S ROMANCE"

Nobleman Who Goes to Work Appears in Triangle Play Featuring Dorothy Gish and Owen Moore
For many years, in plays and comic papers, the titled foreigner stranded in America without funds, has been the butt of popular jokes. It seemed to have remained for the motion picture to set him in his true light. He appears as the hero of "Little Meena's Romance," a serious photoplay featuring Dorothy Gish and Owen Moore and released on the Triangle-Fine Arts programme.

In this piece, he is the Count Frederick von Ritz, a young man of exceeding good looks and some resource, although his money is about all gone. To make up his deficit, he applies for work as a salesman of clothes-wringers and, because he speaks German, is given that territory outlying Philadelphia, occupied by people called "Pennsylvania Dutch."

Count von Ritz at first finds the

people ill-disposed to buy anything that will make housework lighter for the women, because "for what else was women's hands made but to work?" He has made his first stop the little hamlet of Berksdorf; and by ill chance, he has included in his route the home of the town constable who promptly arrests him for canvassing without a license.

He is brought before Judge Bauer who grimly presents him with the alternative of paying ten dollars fine or going for a space of time to the calaboose. At this juncture, little Meena, the judge's pretty daughter suggests to her father that he let Mr. Ritz earn his fine by selling wringers; and in gratitude for this plan to which the judge consents, Mr. Ritz forms a partnership with little Meena, whereby she is to aid him in making sales at a net return of fifty cents to her. How this works out is one of the most amusing parts of a clever film. At the opera house tomorrow evening.

CURWENSVILLE

The July meeting of the Civic Club was held Tuesday evening in their room in the high school building at the usual hour with President C. S. Russell presiding. The program was as follows: Prayer led by Rev. I. T. Hawkins; music; recitation by Miss Mae Shively; open parliament; lessons from our recent celebration of Independence Day, opened by the president. Playground committee reported arrangements progressing for an early opening of the first playground; committee on sanitation and the secretary reported the matter of the town's open sewer laid before the proper authorities and receiving their consideration. Committee was appointed to seek the aid of the State Shade Tree Commission as to the town's dying shade trees. Music. Closed with prayer by Rev. E. D. Parkhill. An offering of 75 cents was received. Committee for Aug. 29th, R. K. Way, Frank McLaughlin and Miss Rose Williams.

Street Commissioner Strunk will soon commence the building of 400 feet of concrete sidewalk, commencing on the south side of Anderson Creek, on the other side of the B. & P. crossing and extending up the hill to a point joining the property of Mike Zaitz.

John W. Broome, who has been residing at Clymer for several years and was connected with an electric light company, has been in town several days making ready to move to his new position at Millersburg. He is the eldest son of Mrs. Martha Broome of this place.

R. Murdock, a resident of Akron, O., and connected with a large business firm there, was a town visitor Wednesday. This was his first visit to Curwensville and he expressed himself well pleased with the town and its general appearance.

Workmen started on Wednesday on the job of painting all the large buildings of the Penn Hide & Leather Company. Red will be the color used with yellow trimming. It will require more than six barrels of paint to complete the work.

More than 2,000 cords of bark has already been delivered to the Summit sole leather tannery. This is about one-half the amount of bark that is expected to arrive.

The brick yard clay mines are a little more than rushing work along these hot days. Something like 200 to 250 tons of clay are mined daily and shipped to the plant.

Mrs. Max Roth and daughter, Miss Corine, who spent a month in Pittsburgh, visiting friends, returned to their home at Eastview Wednesday.

SON OF MEXICAN BANDIT

CHIEF IN OHIO MILITIA

Camp Willis, Columbus, O., July 27.

(By United Press)—The son of a Mexican bandit chief is in the ranks of the Ohio national guardsmen here today. He is Oscar Jones, private.

Co. 1, Second regiment of Kenton.

Oscar's father was chief of one of

the lawless bands that ravage north-

ern Mexico and the border.

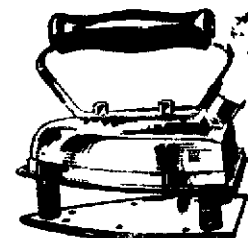

"His escapades brought ruin to us and broke my mother's heart—that's why I'm in the ranks, hating my father's people," said Jones.

"Jones is a willing worker. He'll make a good soldier," said Captain

Edward Collins.
